I think we need to be bold here change behaviour to encourage use of trains and VMS on A127 at Basildon for example to say use stations as car parks are full .Also need to integrate bus and train and consider trams light rail . I do not want to see a town full of car parks empty for 75% of the year

The Clifftown area is a jewel in the crown for Southend yet is unseen by millions of visitors and remarkably local citizens who do not know of its existence . The museum offers the opportunity to showcase the clifftown area

Can we be bold here and use the forum as one side of the grid of a town square and have admin buildings above shops and restaurants on other sides and open the square onto the high street
