Mr James Gibbs,

Thank you for your representation which we received as follows:

Representation ID: 2505  
Document: Southend Central Area Action Plan (SCAAP) - Revised Proposed Submission 2016  
Section: Map 4 - Car Parking, Access and Public Realm  
Support/Object: Comment

This Policy on car parking will not be effective and will only cause issues. the roads are already congested and ear marking current parking for development will only create further congestion. in reality double the parking we currently have is what is required. by increasing the parking and not taking away then it would take cars of the road quicker on busy days and clear the roads a lot quicker. I feel this is derogatory to local businesses and future visitors as all that will happen is it will put people of.

This email is acknowledgement of the receipt of your representation. It is NOT confirmation that the representation has yet been registered. You will not receive any further notification by email that your representation has been registered until the end of the participation period.
